

Patients Continue to Praise Quality Care

Our 6th Annual Patient Survey was completed by over 150 respondents, and every single one of them said they would recommend the Free Health Care Center to a family member or friend!

CCFHCC Administrator Annette Fetchko shared these patients' reflections:

The services are greatly appreciated, but the kindness woven into the care is immaculate.

I am blessed that CCFHCC is here for me. There is no place like CCFHCC. The care you provide is outstanding. Thank you.

I became unemployed in early 2015, and found myself without insurance and in need of medical and dental care. CCFHCC was there for me. I am grateful.

I had not been to a dentist in over 20 years. I did not have insurance and the staff and volunteers welcomed me and the dentist was very gently with the much-needed mouth care. I do not know what I would have done if CCFHCC was not there for me.
